Donia Hali

Data Science engineering student specialized in AI: RAG, LLM agents and machine learning
Four internships including Orange, seeking a 6-month end-of-studies internship from January 2027

Education

ESPRIT (School of Engineering and Technology) — Tunis, Tunisia
Engineering Degree (Diplôme d'Ingénieur, M.Eng. level) in Data Science — *Sep 2024 - Sep 2027*
- EUR-ACE labeled program, accredited by the French Commission des Titres d'Ingénieur (CTI)

Faculty of Economics and Management of Nabeul — Nabeul, Tunisia
Bachelor's Degree in Business Intelligence — *Sep 2021 - May 2024*

AI Projects

SUMO Traffic Agents | *Python, Multi-Agent RL (PPO), SUMO, FastAPI* — Sep 2026 - Present (in progress)
- Building in a team of 7 a multi-agent system controlling traffic lights on a simulated Tunis corridor
- Rule-based orchestrators delegate to 5 RL specialist agents (PPO): flow, emergency, bus, pedestrian, incident
- Safety shield, anomaly detection, queue forecasting; benchmarked vs fixed-time and max-pressure control

QoSBuddy: AI Platform for Network QoS | *Python, TensorFlow, Mistral LLM* — Jan 2026 - May 2026
- Co-developed an AI platform for network QoS: anomaly detection, forecasting and root-cause analysis
- Built AI agents on a Mistral LLM fine-tuned with LoRA, containerized with Docker Compose
- Benchmarked deep learning (GRU, GRU-AE, TCNN) and ML forecasting models (ARIMA, k-NN, XGBoost)

Experience

Data Scientist Intern — Jul 2026 - Aug 2026
Orange Tunisia — *Tunis, Tunisia*
- Developed a RAG assistant over internal technical documentation with a local LLM (Qwen2.5 via Ollama)
- Built an ELK pipeline (Elasticsearch, Logstash, Kibana) ingesting and decoding undocumented SMS records
- Designed statistical anomaly detection on hourly SMS traffic, with Kibana monitoring dashboards

Data Analyst Intern — Jun 2025 - Aug 2025
Banque de Tunisie (BT) — *Tunis, Tunisia*
- Built a Power BI dashboard (DAX KPIs) used by management to monitor the energy performance of branches

Business Intelligence & Machine Learning Intern — Feb 2024 - May 2024
BI4YOU — *Tunis, Tunisia*
- Built and evaluated regression models to forecast key business indicators
- Developed classification models to segment and categorize business records for predictive analytics
- Developed Talend ETL pipelines integrating heterogeneous sources, with data quality controls
- Integrated model predictions into BI dashboards to support decision-making

Data Analyst Intern — Jun 2023 - Aug 2023
Parhelion Consulting and Training — *Nabeul, Tunisia*
- Created interactive Power BI reports for client decision-making; completed Microsoft PL-300-based training

Leadership & Community Involvement

Quality Consultant | *Tunisian Confederation of Junior Enterprises (JET)* — Aug 2024 - Aug 2025
Secretary General | *Néapolis Marketing Consulting Junior Enterprise* — Aug 2022 - Aug 2023
Student Entrepreneur | *PEEC, National Student-Entrepreneur Status awarded twice* — Nov 2021 - Nov 2023

Technical Skills

Generative AI & LLMs: RAG, LLM agents, multi-agent systems, LoRA fine-tuning, Ollama, Qwen, Mistral
Machine Learning: Scikit-learn, TensorFlow, PyTorch, regression, classification, forecasting, RL (PPO)
Programming & Tools: Python, SQL, PL/SQL, Java, C#, R, Git, Docker, FastAPI, Spring Boot, React.js
Data Engineering & BI: Talend (ETL), ELK stack, MySQL, Pandas, NumPy, Power BI (DAX), data quality
Languages: French (C1), English (C1), Arabic (native)
